

Kishore Muthukumar

4th Year Medical Student | Medical University of Łódź

Date of Birth: 1 February 2003 | [LinkedIn Profile](#)

EDUCATION

Medical University of Łódź — MD (Medicine)

2022 – Present

Faculty of Medicine, Studies in English · Łódź, Poland

- 4th year medical student with a focus on clinical medicine and research
- Active participant in international conferences and medical education initiatives

EXPERIENCE & ACTIVITIES

Organizer — OSCE Clinical Skills Workshop 2026

January 2026

Medical University of Łódź · Łódź, Poland

- Planned and delivered a simulation-based, hands-on OSCE training event for 2nd and 3rd year medical students
- Coordinated structured station rotations, real-time feedback sessions, examiners, supervisors, and volunteers

Workshop Facilitator — Master Your Anatomy

2024–2025

Medical University of Łódź · Łódź, Poland

- Conducted a high-yield anatomy recap covering upper and lower limb musculature
- Led interactive review sessions on the brachial and lumbosacral plexus for medical students

Student Ambassador

2024 – Present

Medical University of Łódź, Studies in English

- Represent the university at national and international academic events
- Active participant and represent Medical University of Lodz at the McMaster Medical Conference in Kraków (2025)

Health Leadership Fellow — Osmosis Health Leadership Initiative (OHLI)

Fall 2025

Osmosis from Elsevier · International (Online)

- Selected for a competitive global cohort of future healthcare leaders
- Led initiatives focused on medical education, public health, and access to knowledge
- Collaborated with students from institutions worldwide to create impactful educational content

RESEARCH & PUBLICATIONS

Published Abstract — IOCCM2025 (MDPI)

2025

"Evolocumab in the Management of Statin-Intolerant Familial Hyperlipoproteinemia with Elevated Lipoprotein(a) Post-TAVI: A Case Report"

- Presented at the 3rd International Online Conference on Clinical Medicine (IOCCM2025)
- Explored PCSK9 inhibition with evolocumab as a therapeutic strategy in a complex, high-risk cardiovascular patient

Conference Presentations — AMSA International Students' Conference

May 2025

Organised by AMSA PUMS & English Research Student Association (ESRA)

- Targeted PCSK9 Inhibitor Therapy in a Statin-Intolerant Patient with Elevated Lipoprotein(a) Following TAVI
- Complex Polytrauma Following a Motorcycle Accident

Ongoing Research

2025 – Present

- 4 additional manuscripts currently in progress across various stages of completion

SKILLS & COMPETENCIES

- Event organisation and logistics: workshop planning, scheduling, materials coordination
- Leadership: team coordination, facilitator management, student engagement
- Academic research: abstract writing, scientific reporting, manuscript preparation
- Clinical skills: OSCE-based assessment, simulation training, anatomy instruction
- Communication: public speaking, delegate engagement, conference representation
